
Windows OS: Anaconda Installation

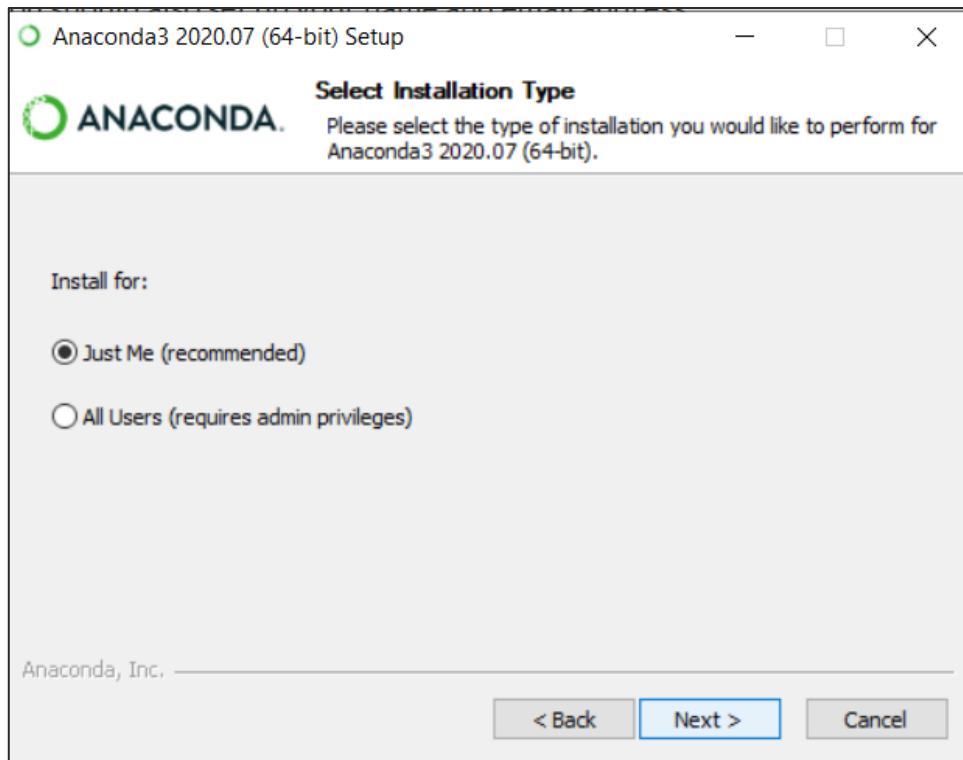

Step by Step

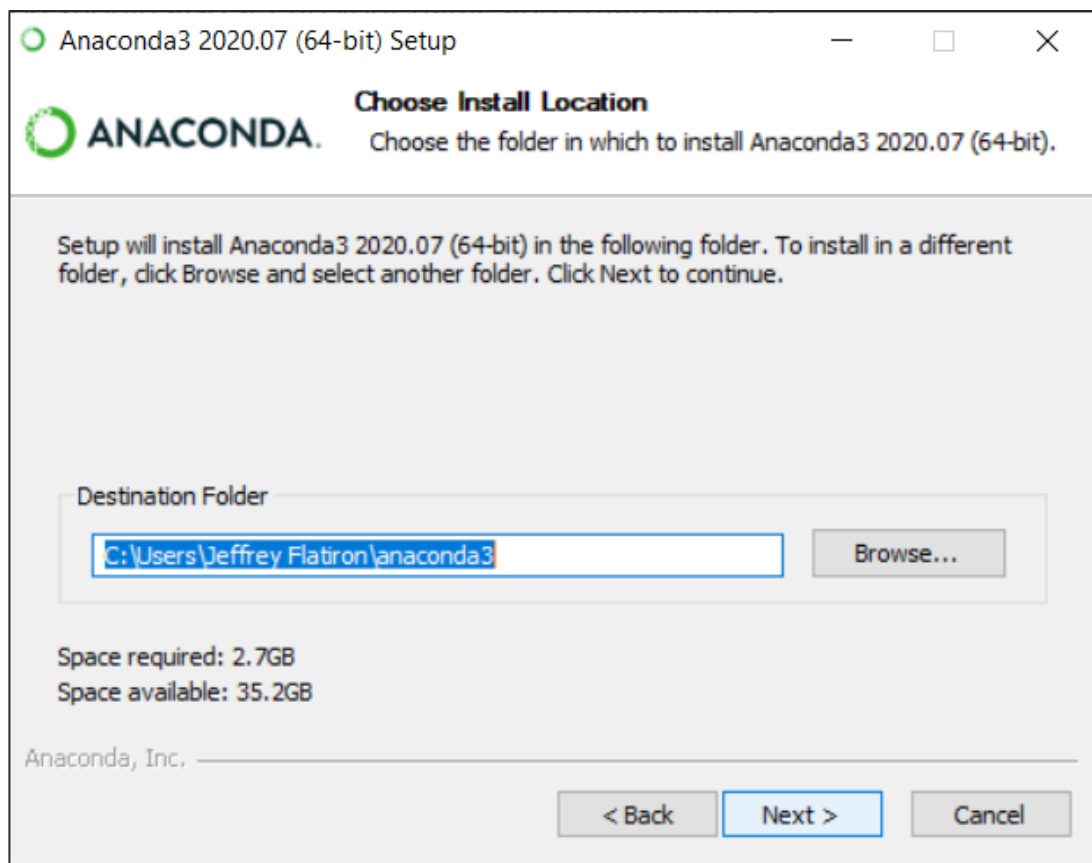

Step 1: Anaconda's download page for Windows OS - choose 32-bit or 64-bit option

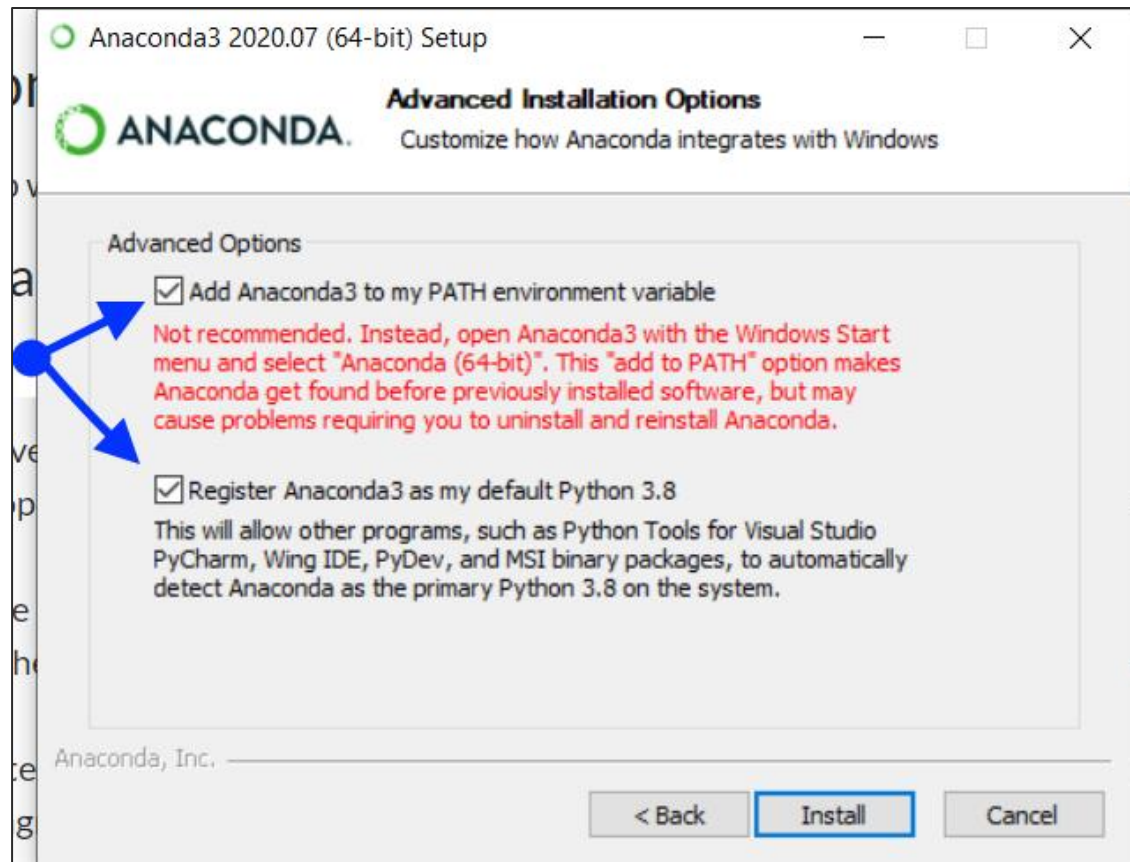

Step 2: Open the downloaded file - on the license prompt, click "I Agree" to accept

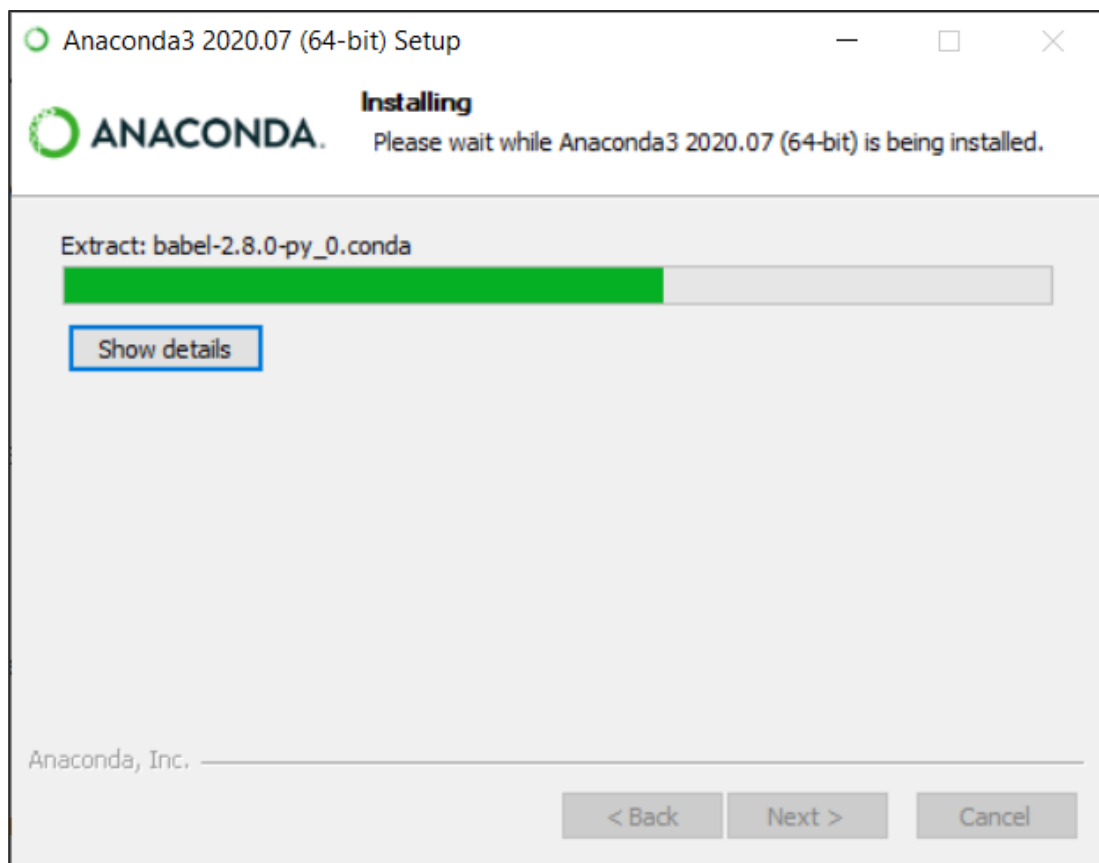

Step 3: Select “Just Me” for Installation Type

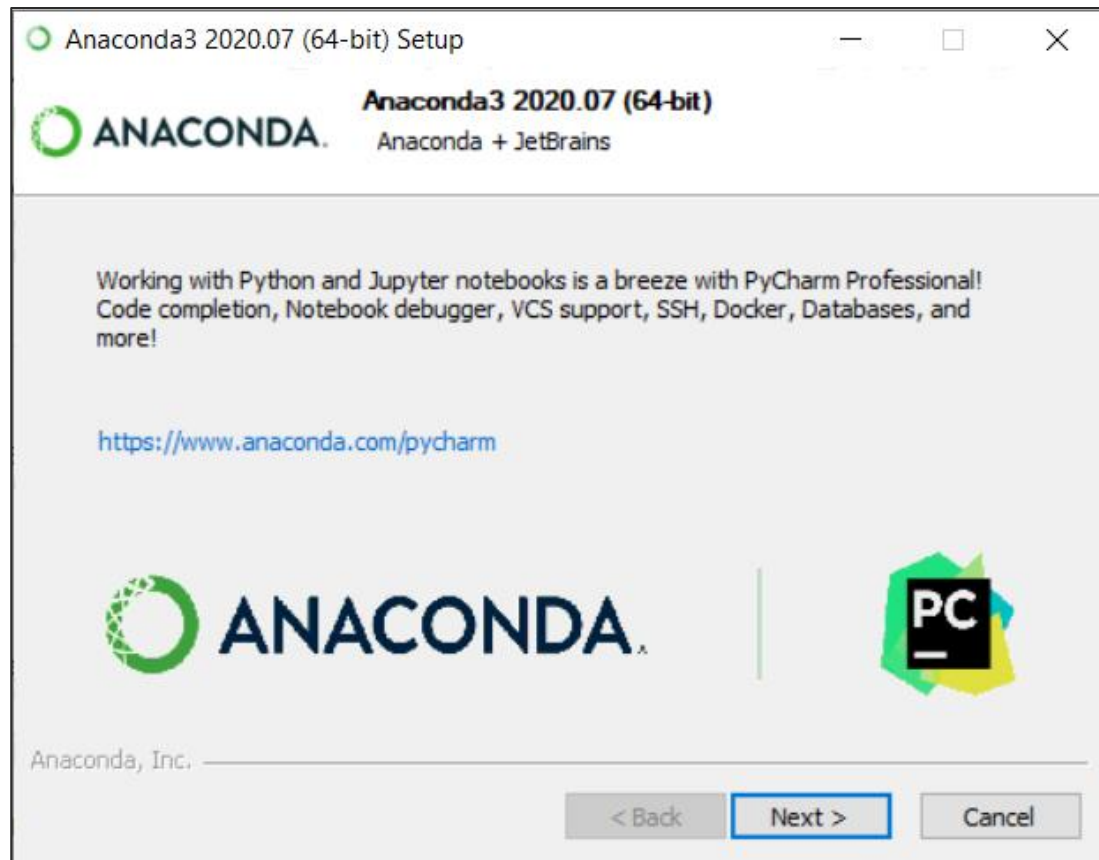

Step 4: Select the installation destination folder (default is recommended)

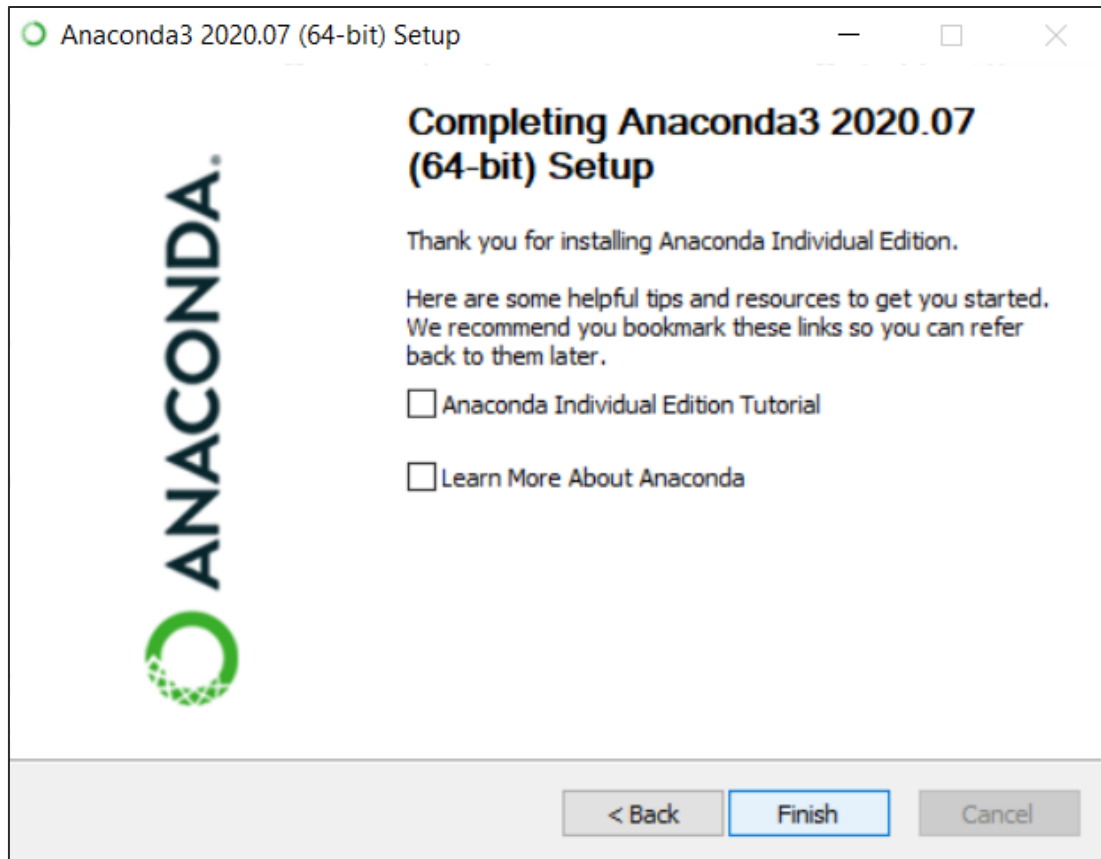

Step 5: Make sure to choose both Advanced Installation Options!

Step 6: Install

Step 6, Continued: You can skip any add-ons, like the PyCharm installation

Step 7: Installation Complete - click "Finish"
